

## Create, manage and administer world-class assessments at any scale

ADAM is a complete assessment solution that helps you build quality assessments quickly, easily, and safely from anywhere in the world

# A comprehensive authoring platform

ADAM creates efficiencies across your organization and lets you develop next-generation assessments that benefit test-takers and provide rich data for more informed decisions. With over 65 templated item types and custom integrations, you can ensure a reliable assessment every time.

## Measure 21st Century skills

Better content means richer assessment results. Make more informed decisions. Ensure that learning outcomes match real-world needs with a platform geared for authentic assessment.

### Assessment

Quickly and easily build quality assessments

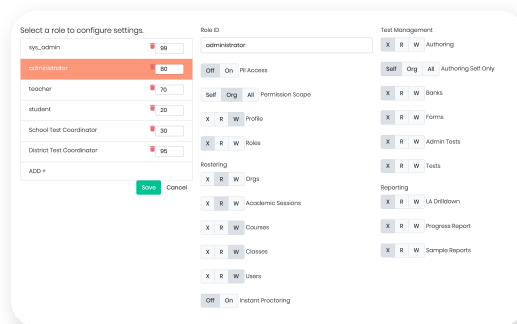

### Scoring

Enable rich multi-trait or holistic rubrics and instantly score in OSCAR

### Reporting

Get instant results for greater quality control

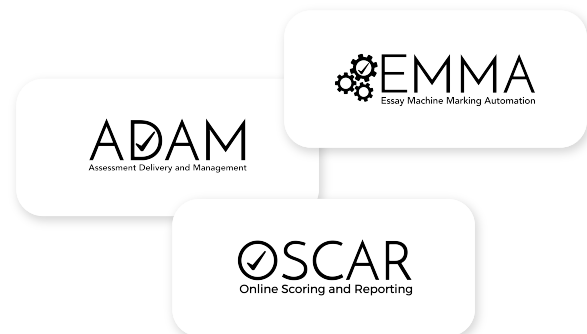

## Total control, total flexibility

We designed ADAM to be flexible in any assessment environment. Tailored functionality, API integration, and custom item types make it simple to get the most out of the system. Create multiple levels of access and privacy for a safe, reliable assessment builder you can use anywhere.

## The perfect companion

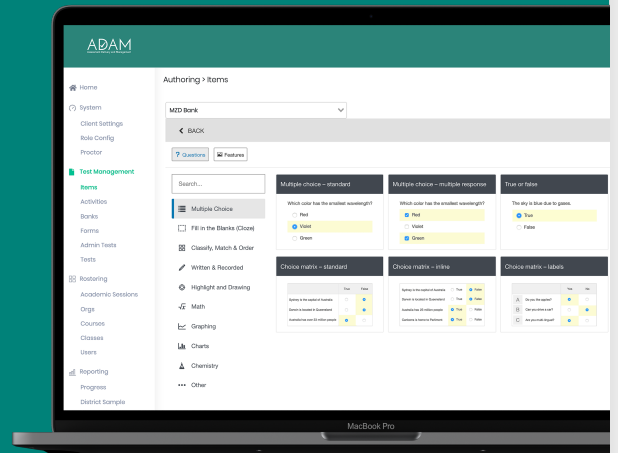

ADAM is part of the MZD Family – performance-based responses are automatically available for scoring on OSCAR or for more immediate results, our AI scoring platform, EMMA allows for instant marking. Build authentic assessments, score performance, get accurate reports, and manage institution-wide development from a single system.

# Book a demo at your convenience

Our team is ready to give you a sneak peek into ADAM's capabilities whenever you like. We'll help you understand the key efficiencies you can create in your assessment process and how you'll benefit.
